WAE - World Archery Europe

The continental association for Europe was only founded on 17.04.1988 in Paris. Traditionally, the European federation also includes the non-European countries bordering the Mediterranean Sea, as they had been taking part in its competitions since the seventh European Championship.
At the congress on 20.05.2012 the change of name from **European & Mediterranean Archery Union (EMAU)** to World Archery Europe (WAE) was decided. The new name came into effect on 01.01.2013.
