

IFs - International Sports Federations

The International Sports Federations are responsible for the integrity of their sports on an international level. These organizations establish the rules of their sports and are responsible for the arbitration, judges and other officials. They plan and organize the competitions at the Olympic Games and other international competitions.

To arrange competitions of both Summer and Winter Olympic Games, the IFs have formed the following associations.

ASOIF - Association of Summer Olympic International Federations

The 21 International Federations, which sports belonged to the program of the 1984 Summer Olympics founded the ASOIF on 30.05.1983.

ARISF - Association of IOC Recognised International Sports Federations

The members of the ARISF are international sports federations that are recognized by the IOC but are currently not participating in the Olympic Games. As soon as their sports are included in the Olympic program, they

automatically lose their membership of the ARISF and will become members of the ASOIF or AIOWF.

The concept of an organization of such sports federations was discussed at a meeting of the IOC Executive Board with them on 01.06.1983 in Lausanne. Later that year a draft of the ARISF constitution was sent to the IOC. On 01.12.1983 the IOC informed Mr. Kim that the Executive Board had recognized the new organization last week. The annual meeting of the ARISF approved the constitution on 28.05.1984 in Lausanne.
